Wood (see Timber); wood (paper) pulp.
Wood spirit, spirit (alcohol).

NOTE.—As regards the export of spirit direct to Allied countries, see Note 1 on page 346.

Wool and down; woollen combings; wool clippings; woolskins and rags; camel hair.
Woollen tissues, felt, and other woollen manufactures.
Woollen yarns (see Yarns).
Xylol (see under Benzol).
Yarns of textile materials.
Zinc ore (see Ores); zinc scoriæ, zinc, its alloys and manufactures, scrap and brack (see Metals).

SWITZERLAND.

LIST OF ARTICLES THE EXPORT OF WHICH IS PROHIBITED.

January 13, 1916.

NOTES.

1. The Federal Council reserves to itself the right to authorise exceptions to the prohibitions of exportation which have been established in respect of the following goods by successive Decrees of the Federal Council.

2. Notwithstanding the prohibition of export, prohibited goods may be sent in transit through Switzerland in sealed wagons.

3. The *importation* of cereals (wheat, spelt, barley, rye, oats, maize), of the products resulting from the grinding thereof, including forage meal and bran, as also of all concentrated forage necessary for the feeding of cattle, is reserved exclusively to the Confederation. *The re-exportation of such imported products is absolutely prohibited.* [*Decree of January 7, 1915.*]

4. The Swiss prohibitions of exports are, in the main, based on the classification of the Swiss Customs Tariff, and the numbers quoted below are the Tariff numbers under which the prohibited goods fall. In the earlier Decrees, however, the prohibitions of export were not drawn up on the basis of the Tariff classification, so that it has not been possible to indicate in all cases the headings of the Tariff under which certain articles fall.

ex 974*b*	Acetanilide (antifebrine).
ex 1020, ex 1027	Acetates of soda and potash.
ex 1051, ex 1059	Acetic acid, crude or purified, having an empyreumatic odour; anhydrous acetic acid, monochloracetic acid.
	Acetic acid, other, containing more than 12 per cent of acetic acid (see under Vinegar).
ex 1051	Acetone.
ex 974*b*	Acetylsalicylic acid.
	Acids:—see under the respective headings—acetic, acetylsalicylic, benzoic, boric, carbolic, chlorosulphuric, chromic, citric, fatty formic, gallic, hydrochloric (muriatic), lactic, molybdenic, nitric, oxalic, phosphoric, phthalic, sulphuric, sulphurous, tannic, tartaric, titanic, tungstic, vanadic.
ex 974*b*	Adrenaline, natural or artificial and other extracts of the suprarenal glands (suprarenine, paranephrine, epirenine, etc).
	Aeroplanes.
	Agar-agar (see under Chemical raw materials [No. 988.])
ex 894*c*—898*b*, M 9, ex 1164	Airships.
1071	Albumen (egg and blood albumens) and yolks of eggs—for industrial purposes.

125, 1070	Alcohol (absolute), "trois-six," spirits of wine—even if denatured.
ex 1059	Alcohol, methylic (chemically pure wood spirit).
ex 968	Aloes. (included under Pharmaceutical articles.)
ex 982-983, 1002	Alums; alum in blocks for toilet purposes.
ex 974*b*, ex 981, ex 1041	Alumina—acetate of, acetotartrate of (alsol), sulphate of, and hydrate of.
ex 1041	Aluminate of Soda.
	Aluminium and alloys thereof:—
862—865	Raw, or in sheets, bars, wire, pipes.
866—867	Wares of all kinds, including thermite.
1033 and ex 982—983	Ammonia in aqueous solution.
1033, ex 163, ex 1048, ex 1059	Ammonical salts (chloride, crude ammonical salts, sulphate of ammonia, and others). [See also under Gases, compressed.]
	Ammunition for portable firearms (included under explosives and pyrogenic articles, *q.v.*).
1066*a*	Aniline (also crude aniline); aniline oil; aniline salt.
1066*b*	Aniline combinations for the manufacture of colours, such as toluidene, dimethylaniline, etc.
	Aniline and other coal tar colours (see under Colours).
	Anthracene (see Coal tar derivatives); anthracene colours (see under Colours).
	Antimony ore (sulphuretted antimony) (see under Ores).
876	Antimony, native (sulphide of antimony), regulus of antimony.
ex 974*b*	Antipyrine.
ex 971	Apomorphine.
ex 971	Arecoline and its salts.
Various Nos.	Arms and their component parts.*
	Artificial manures (see under Fertilisers).
	Asbestos, mica, and micanite:
ex 634	In sheets, even if combined with tissues.
ex 635	In pipes or other specially shaped articles, even combined with other articles.
	Ash wood (see under Wood).
639	Asphalts and bitumens of all kinds, crude.
135	Asses. (See also Horses and Mules.)
ex 971	Atropine and its salts.
ex 803—809	Ball bearings, of iron or steel, and detached parts thereof.
ex 968, ex 981	Balsam of Peru, artificial balsam of Peru. [For other balsams, see under Pharmaceutical articles.]
1161	Bandaging and wound-dressing articles.
	Barbed wire (see under Iron).
	Bark (see Tanning woods, etc., Cinchona bark, etc.).
ex 950—951	Batteries, electric, including those for pocket lamps; electrodes combined with copper plates.
1065*b*	Benzine, and substitutes for oil of turpentine.
	Benzol, chlorobenzol, benzoic acid, etc. (See Coal tar derivatives.)
972, 1069, ex 974b, ex 1028	Benzol and napthalene derivatives (including saccharine, etc.)
ex 1023a, ex 1048	Bicorbonate of soda and other alkaline bicarbonates.
ex 946	Binoculars, prismatic and lenticular.
ex 21	Biscuits and other fine bakers' wares, without sugar (except individual consignments weighing 5 kilogrammes or less). (For such wares with sugar, see Confectionery, etc.)
ex 878, ex 975, ex 974*b*, ex 1048	Bismuth; xeroform (tribromophenate of bismuth); unspecified salts of bismuth, such as airol, dermatol, sub-nitrate of bismuth; nitrate of bismuth (for industrial use).
ex 165	Bones, crude bone dust. (See also under Fertilisers.)
190—201	†Boots and shoes of all kinds (whether of leather, tissues, rubber, or any other material), cut out parts for boots and shoes, and sales (except cork sales) to be put into boots and shoes. (See also under Made-up articles.)

* A general authorisation to export has been granted in respect of portable firearms not using Swiss Army ammunition, and in consignments of not more than fifty arms. [13-10-15.]

† It is understood that only Swiss *manufacturers* will be allowed to have export licenses for boots and shoes, and that no such licenses will be granted to dealers. [*June* 10, 1915.]

1024	Borax.
1008	Boric acid ; phosphoric acid.
	Bran (see under Forage).
	Brass (see under Copper).
20	Bread, bread in slices for soup, dog biscuit, etc.
	Briquettes. (See under Fuel.)
1009, ex 1059	Bromine and salts (inorganic or organic) of bromine, not specified elsewhere.
	Bronze (see under Copper).
93—97	*Butter (including Margarine, artificial butter, cocos butter, and other butter substitutes) ; cream ; other edible fats (lard, oleomargarine, edible suet, etc.).
	Cables, electric (see under Copper) ; cables of iron or steel wire (see under Iron).
	Calcium salts :
ex 163, ex 1020	Nitrate, crude or purified.
ex 609, ex 1041	Fluoride, crude (fluorspar) or purified.
ex 974*b*, ex 981, ex 1021	Biphosphate, glycerophosphate, lactate, permanganate, oxalate.
ex 998	Tartrate.
ex 1004	Bisulphite.
ex 1005	Peroxide.
ex 1026	Nitrite.
ex 1048	Borate, citrate, sulphide.
ex 992, 983, 999, ex 1052	Camphor, raw, and refined (see under Chemical raw materials).
ex 1135—1136	Candles, tallow and wax, of all kinds, except those used for Christmas trees.
	Carbolic (phenic) acid. (See coal tar derivatives.)
ex 627	Carbon stems for electric pocket lamp.
ex 629	Carborundum, crude, also powdered.
	Cardboard (see under Paper, etc).
	Cartridges and projectiles for infantry and artillery, and detached parts thereof.
1072	Caseine.
255 and ex 787—790	†Casks (used) for petroleum and oil—of wood or of sheet iron.
974*a*	Castor oil, colourless, purified. (For castor oil, industrial, see under Oils, fats, waxes, etc.).
ex 185	Catgut, in rolls, not sterilised.
986	Catechu, kino, gambier. (See under Chemical raw materials.)
136—142	Cattle (oxen, bulls, cows, heifers, young cattle).
	Cattle foods (see under Forage.)
ex 641	Cement, ligneous (bituminous composition for roofs), and all other similar products manufactured with tar.
	‡Cereals (wheat, rye, barley, oats, rice, etc.), maize, pulse :
1—10	In the grain, not crushed, not husked.
11—14	In the grain, pearled, hulled, cleaned or crushed ; groats, semolina.
15	Malt.
16—19	Flour including alimentary flour (farinaceous foods) for infants.
ex 224, ex 967	Charcoal (lime-tree charcoal), whole or ground.
98—99§	Cheese, soft or hard-paste ; caseine.
	Chemical raw materials (raw materials for chemical purposes) :—
985	Iceland moss, " psyllium " seeds, etc.
986	Catechu, kino, gambier.
987	Lemon juice.

* A general authorisation to export has been granted in respect of consignments of fresh butter not exceeding 2 kilogs. exported in frontier traffic. [13-10-15.]

† The regulations established in regard to empty sacks [see Note ‡ on page 365] shall also be applied to empty casks sent abroad to be filled and returned to the owners ; but in the case of casks, a period of *three* months shall be allowed for the re-importation.

‡ See also Note 3 on page 352.

§ Until further notice, cheese in pieces weighing at most 2 kilogs. may be exported without special authorisation, provided that the same person or family may not export, each day, more than 2 kilogs. [13-10-15.]

988	Gums of all kinds; agar-agar.
989—992	Resins for industrial use, all kinds, such as:—Colophany (purified pine resin); gum copal, gum damar, gum sandarac, stick lac, shellac, mastic, gum resins, pitch, dry pitch, turpentine, galipot, etc., etc.
993—994	Sulphur in pieces, lumps, sticks, or powder; flowers of sulphur.
995	Turpentine oil (for substitutes, see under Benzine).
996	Tar of all kinds.
997	Dry wine lees.
998	Tartar, crude.
999	Camphor, and other chemical raw materials not specified in the Swiss Customs Tariff.
35	Chestnuts, fresh or dried.
	Chicory roots, fresh (see under Forage); chicory roots, dried, etc. (see under Coffee substitutes).
1011, ex 1021, 1028	Chlorates, perchlorates and persulphates.
1012, 168, ex 1028	Chloride of lime chloride of potassium, chlorate of sodium.
1013	Chlorine, liquefied by pressure or in the form of gas, in wrought iron or steel receptacles.
ex 976	Chloroform for narcosis.
1037	Chlorosulphuric acid (sulphuric hydrochlorine).
64*	Chocolate. (See also Cocoa.)
ex 1038, ex 1018*a*, 1019, 1025, 1041 and 1048	Chrome acid; chromate, bichromate, and other salts of chrome.
1106*a* ex 1018*a*, ex 1041, ex 1111	Chrome, oxide and hydrated oxide of chrome, even in aqueous paste; residues of chrome from the manufacture of chemical products.
	Chrome, sulphate of, and salts of, for tanning (see under Tanning substances).
ex 966—967	Cinchona bark (included under Pharmaceutical articles).
1050	Citric and tartaric acids.
Various Nos.	Clothing and articles of equipment for the use of troops, of whatever material composed.
	Coal and coal-dust (see under Fuel); coal tar (see under Chemical raw materials).
1065*a*	Coal tar derivatives and auxiliary materials for the manufacture of aniline colours, such as benzol, chlorobenzol, naphthalene, anthracene, carbolic acid (phenol); toluol; benzoic acid, etc. [See also Aniline and Aniline combinations.]
	Coal tar colours (see under Colours, etc.)
60—63*	Cocoa husks, cocoa beans, cocoa butter, cocoa powder, chocolate paste. (See also Chocolate.)
ex 971	Cocaine and its salts and combinations codeine and its salts.
54-57	Coffee, raw or roasted; coffee substitutes of all kinds in a dry state; articles for preparing coffee substitutes —beetroots cut in slices, and similar products.
	Coke and coke dust (see under Fuel).
ex 974*b*, ex 1059	Collodion (iodated); collodion prepared with silver bromide.
989	Colophany (purified pine resin).

* The chocolate factories enumerated in the list sent to the Customs houses have received a general authorisation, valid until further notice, to export to countries other than Germany and Austria and countries in the occupation thereof:—

(*a*) Cocoa in powder, in separate consignments, up to 200 kilogs. for each consignee.

(*b*) Chocolate, without restriction as to quantity, but only in pieces, blocks, tablets, packets, rolls or boxes weighing not more than 500 grammes.

Special authorisation must be obtained for the exportation of chocolate in powder. Chocolate (except chocolate in powder) in postal parcels weighing up to 5 kilogs. (gross), as also chocolate (except chocolate in powder) in quantities of up to 2 kilogs. in retail frontier traffic, may be exported without special authorisation until further notice.

The specialities classed in No. 63 (such as liquid chocolate, with milk or cream added, in boxes; oatmeal cocoa; cocoa mixed with milk and oatmeal; cocoa mixed with banana flour; cocoa mixed with vegetable substances; alimentary flour for infants containing cocoa, etc.) are not, until further notice, to be regarded as covered by the prohibition of export. [13-10-15.]

	Colouring materials and colours, *viz*:—
1089—1090	Colouring earths, crude or manufactured.
1091—1096	Vegetable colours (dyewoods, berries, etc.; extracts; cochineal, etc).
1097—1098	Colours derived from coal tar (artificial alizarine, colours from aniline, anthracene, naphthalene, and other coal tar colours).
1099	Indigo, natural or artificial; indigo solution.
1100—1106	Chemical colours, not prepared.
1107—1111	Colours of all kinds, prepared (oil colours, water colours, etc., etc.)
102	Confectionery and sugared goods.
101	Conserves of fruit.
102—103	Conserves and articles for consumption (delicacies) (including soupseasonings [Maggi's seasoning, etc.], and sauces); confectionery and sugared goods (sucrerie).
	Copper and copper alloys:
814	Copper ores, filings, turnings and shavings of copper, scrapings of brass, etc.
	Semi-manufactured wares of copper and copper alloys:—
815	Bars, pigs, slabs, discs, etc.
816	Waste, old bell and gunmetal.
817—819	Hammered, rolled, or drawn:—Bars, plates and sheets; copper solder; washers; wire; pipes.
820	Silvered, gilt, twisted round cotton or silk thread.
821	Imitation gold wire (*fil leonique*).
822	Imitation gold and silver beaten into thin sheets.
823—828	Electric cables of all kinds (including field cables), of copper or copper alloys, whether insulated or not, including insulated electric wires.
829	Metallic tissues and brass or copper gauze.
830	Rivets, screws, pins, nails, tacks.
831—832	Bells of all kinds of copper, copper alloys, or bronze.
833—839	Wares of copper, of bronze, or of other copper alloys not elsewhere mentioned in the Tariff [including specifically cartridge and shell cases (*douilles pour munitions*)].
	NOTE.—The prohibition of the exportation of wares of copper or copper alloys does not apply to— Machines, mechanical contrivances and vehicles [Category XII A and B of the Tariff], or to Clocks and watches, instruments and apparatus [Category XIII A and B of the Tariff], in so far as such articles are not specifically prohibited to be exported.
1044	Copper sulphate (copper vitrol); ammoniacal sulphate of copper, "fungivore" products, steatite prepared with sulphate of copper and similar products for combating diseases of plants.
	Copra (see under Oils, fats, waxes, etc.).
	Cordage, old, for making paper (see under Rags); cordage, other (see under Flax (Ropes, cables, cordage, etc.); cordage (cables, etc.) of iron or steel wire (see under Iron).
ex Category VII A*	Cotton:—Articles included in this Category of the Tariff (even if mixed with wool) capable of being used for the clothing or equipment of troops; and bandaging articles.
341-342	Cotton, raw or bleached, dyed, etc.
344 and ex 342 and 346	Cotton waste, even if carded or gummed.
345—346	Cotton wool (wadding) including bleached, chemically pure, cotton wool); cotton tow, carded, in layers.
347—348	Cotton yarns, unbleached, boiled, bleached, glazed, mercerised, dyed, printed—whether single or twisted; imitation vicuña yarns.
	NOTE.—The prohibition of export applies not only to yarns of pure cotton but also to yarns of mixed yarns which

* A general authorisation of export has been granted in respect of articles of cotton *not* mixed with wool [13-10-15.] [The prohibition on articles coming under Nos. 360-363 was, however, imposed subsequent to this announcement.]

	are assimilated for Tariff purposes to pure cotton yarns.* Further, mixed cotton yarns which are *not* assimilated for Tariff purposes to pure cotton yarns are also prohibited if it is suspected that the admixture was effected in order to avoid the prohibition.
360—363	†Cotton tissue, plain or twilled, 35 cm. or more broad—unbleached or gassed, subjected to a slight bleaching process or imitation dyed.
	Cottonseed (see Seeds); cottonseed oil (see under Oils, fats, waxes, etc.).
ex 1064	Cresol and soapy solutions thereof.
ex 666	Crucibles of graphite.
ex 1019, ex 1025	Cyanide and sulphocyanide of potash, yellow and red prussiates (ferro cyanide and ferri cyanide) of potash; cyanide of sodium.
	Cycles (see under Vehicles).
ex 974*b*	Diethylmalonyl urea (veronal, malonal) and its salts.
ex 974*b*	Dimethylamidoantipyrine (pyramidon).
	Dimethylaniline (see Aniline combinations).
ex 971	Dionine.
ex 148*a*	Dogs;—Military and police dogs.
	Dyes and dyestuffs (see under Coloures, etc.)
22	Edible pastes (macaroni, vermicelli).
86; 1071	Eggs; egg albumen and egg yolks—for industrial purposes.
527	Elastic tissues of all kinds, of rubber mixed with cotton wool, silk, etc.
	Electric cables (see under Copper); electric batteries (see Batteries); electric pocket lamps (see Pocket lamps); electric transformers (see Transformers).
	Embroidering machines (see Machines for embroidering).
ex 966-967	Ergot of rye (included under Pharmaceutical articles).
1062	Ether, sulphuric (ethyl ether).
1082-1088	Explosives, and pyrogenic articles, including electric mine-exploders.
	Fats, edible (lard, oleomargarine, cocos butter, etc. (see under Butter); fats, other (see under Oils, fats, waxes, etc.).
ex 1059	Fatty acids unspecified.
ex 878, ex 1145	Ferrocerium, even if prepared for retail sale.
	Ferro-chrome, ferro-manganese, ferro-tungsten: crude (see under Iron).
	Fertilisers:—
167	Potash fertilisers, saline residues of Stassfurt salts.
169	Artificial fertilisers, bone dust, superphosphates, also phosphates and phosphorites: prepared.
	[See also under Bones, Nitrates (crude), Phosphates, Rags of wool and half-wool (for manure), Sulphuric acid (used).]
ex 964	Fieldglasses, prismatic and lenticular.
	Firewood (see under Fuel).
88-90	Fish, dried, salted, marinated, smoked, or otherwise preserved; [mussels and other shellfish, fresh‡]. [For fish conserves, see under Conserves.]
	Flax, hemp, jute, ramie (China grass), Manila hemp, and other similar textile materials:—
ex Category VII B	Articles included in this Category of the Tariff (even if mixed with wool) capable of being used for the clothing or equipment of troops; and bandaging articles.
396	Flax, hemp, jute, ramie (China grass), Manila hemp and other similar textile materials, and wastes thereof—

* The *assimilation* of mixed yarns to pure cotton yarns depends upon the rates of duty leviable on the component materials. Further information on this point may be obtained, if desired, from the Commercial Department of the Board of Trade.

† Tissues of this kind, when exported under license, may only be exported, through the customs houses of Buchs, Romanshorn, Singen, Verrieres, Geneva, and Chiasso. [11-12-15.]

‡ A general authorisation to export has been granted in respect of fresh mussels and other fresh shellfish. [13-10-15.]

	raw, steeped, stripped or hackled, dressed, bleached, dyed, etc.; tow.
397-404	Yarns of the textiles enumerated in Tariff No. 396, and of their wastes:—Unbleached; boiled, lyewashed, creamed, bleached; dyed, printed; twisted; or made up for retail sale (on reels, in balls or skeins, etc.).
ex 405—413	Jute tissues for use in the manufacture of sacks.
423, ex 425	Ropes, cables, cordage and other ropemakers' wares (except nets), composed of the textile materials enumerated in Tariff No. 396 and of wastes thereof.
426	Sacks (for the transport of articles of general consumption, *not* sacks for household use, etc.) of the textile materials enumerated in Tariff No. 396.*
427	Girths and halters.
	Flour. (See under Cereals.)
	Foodstuffs. (See under the respective headings, and under Conserves, etc.).
212-217	†Forage of all kinds (hay, oilcake and oil cake-meal, malt germs, cattle foods and meal thereof, bran, etc.).
ex 220	Forage (green fodder) and seeds; fresh chicory roots.
ex 974*b*, ex 1053	Formalin (formaldehyde, formic oldehyde, formol) and paraformaldehyde, liquid; formaldehyde (formic aldehyde) and paraformaldehyde in liquid solution.
ex 1051	Farmic acid.
23-30‡	Fruits, edible berries, fresh,‡ dried or drained; juices of fruit and berries, etc.; crushed fruits, etc. (See also Grapes, Chestnuts, Southern fruits.)
101	Fruit preserves of all kinds.
	Fuel:—
ex 219	Vegetable wastes which may be used as fuel.
221-223	Firewood, brushwood, tree bark, peat, tan briquettes.
ex 224	Lime tree charcoal, whole. (For powdered lime tree charcoal, see Charcoal.)
643-646	Coal, coal dust, schist[e] (schisty coal); petroleum residues for fuel; lignite; coke, coke dust; briquettes of all kinds, wood charcoal dust, retort carbon.
	Furs (see under Hides and skins, and also under Made-up articles).
1054	Gallic acid, tannic acid, and other similar acids; gallaminic acid.
986	Gambier, catechu, kino.
81-82	[Game (ground or winged game)§] preserves of ground and winged game.
	Gases, compressed:
1014	Carbonic acid, liquefied by compression.
1015	Acetylene, lighting gas, oil gas—liquefied by compression.
1016	Ammonia, liquified by compression.
1017	Oxygen, hydrogen, liquid air; sulphurous acid, and other unspecified compressed gases.
ex 691, ex 696	Glass receptacles (ballons) (of common black, brown, or green glass) for the transport of acids, even encased in or encircled by sheet iron—of a capacity of 25 litres or more.
	Gloves (winter gloves) of leather, for men (see under Leather) other gloves, etc., suitable for troops (see under Made-up articles).
ex 1059, 1074	Glue:—Resin glue; glue for bootmakers (Vienna gum, gluten).
ex 974*b*, ex 982-983, ex 1056	Glycerine, medicinal; glycerine, perfumed; glycerine, purified.
146	Goats.
	Gold, Silver and platinum pure or alloyed:
868	Scrap, waste, ashes, filings and dross.
869*a-c*	Unworked; (including silver in granules).

* See Note ‡ on page 365.

† See also Note 3 on page 352.

‡ A general authorisation to export has been granted in respect of consignments of fresh fruit not exceeding 100 kilogs., but individual proprietors (*proprietaires*) may not export more than one consignment of 100 kilogs. per day. [13-10-15.]

§ A general authorisation to export has been granted in respect of ground and winged game [13-10-15.]

869*d*	Gold coins (including antique gold coins).
ex 870	Rolled, in plates, bands, sheets, etc.
871	Gold, silver, and platinum in the form of wire and spun; metal wires surrounded with gold, silver or platinum.
872	Tissues of gold, silver, or platinum threads; gold and silver beaten into thin sheets (foil).
ex 873	Wares of metals, not specified elsewhere, plated, silvered gilt—in so far as such wares are prohibited when *not* so coated.
ex 874*a*	Wares of gold or platinum, except watches and jewellery.
ex 974*b*	Salts of gold and compounds of gold, not specified elsewhere, such as chloride of gold, double chloride of gold and radium (gold salt), etc.
ex 1048	Salts of platinum and compounds of platinum, not specified elsewhere, such as chloride of platinum, ammoniacal chloride of platinum, etc.
31-34*	Grapes (fresh grapes and raisins).
218; 997	Grape and fruit residue (*marcs*); liquid wine lees; dry wine lees.
ex 1089, 1090, and 1105	Graphite, even ground, washed, pulverised, compressed, etc.
ex 666	Graphite crucibles.
	Greases for polishing (see Polishes); other greases (see Fats).
	Groats. (See under Cereals.)
ex 988, ex 1159	Gum solution; liquid gum in receptacles of 1 kilog. or more.
	Gums and gum-resins (see under Resins).
ex 808	Guncarriages. (See under Iron.)
ex 250, ex 813	Gunstocks, in the rough and finished.
149	Guts and bladders, of animal origin; calves' stomachs, fresh or dried even salted; unworked rennet (natural rennet).
ex 498, ex 501	Hair goods:—Tissues and unspecified wares of horsehair and other animal hair (except pigs' bristles) in combination with wool.
	Harness. (See under Leather.)
212	Hay. (See also under Forage.)
	Hemp and certain wares thereof. (See under Flax.)
ex 971	Heroine.
172-176†	Hides and skins (raw, tanned, curried, and roughly sewn together).
71	Honey.
53	Hops.
132-135	Horses, etc.:—animals of the equine kind (horses, mules, asses).
	Horseshoes and horseshoe nails and spikes. (See under Iron.)
	Hosiery (stockings, etc.) for troops (see under Clothing).
1035	Hydrochloric (muriatic) acid.
ex 1028 and 1048; ex 1053	Hydrosulphite; hydrosulphite—formaldehyde of soda.
ex 1042, ex 974b	Hypochlorites and Hypophosphate (alkaline).
	Indigo and indigo solution (see under Colours).
938	Instruments and apparatus, medical and surgical.
ex 1048	Iodates (alkaline).
ex 1009, ex 1059, ex 1048	Iodine and salts (organic or inorganic) of iodine not specified elsewhere; chloride of iodine.
ex 981	Iodine, tincture of.
ex 975	Iodoform.
ex 966-967	Ipecacuanha and rhubarb roots (included under Pharmaceutical articles).
	Iron:—
708, 711	Waste obtained in the manufacture of iron (filings, turnings, etc.); scrap iron, and old iron.
709, 710‡	Raw iron; ferrochrome, ferromanganese, ferro-tungsten: crude.
712—715	Round iron (including wire iron in coils).

* A general authorisation to export has been granted in respect of fresh or crushed grapes. [13-10-15.]

† Fresh, salted, or dried skins of wild animals, of cats, and of rabbits may be freely exported until further notice. [13-10-15.]

‡ The exportation of ferro-silicon is permitted. [March 6, 1915.]

716—718	Flat iron and square iron (including blocks and blooms, etc.).
719—721	Iron in special shapes (T, U, Z, oval, angle, etc.,) rough, not perforated.
722-724	Iron wire, drawn or cold rolled (whether rough or coated with other metals, etc.), including barbed wire.
725—732	Sheet iron :—Rough, coated with lead, zinc (galvanised), tin (tinplate), copper or nickel; painted, varnished, etc.—even corrugated [and also if perforated, bent, or curved].
733—741	Railway plant (rails and sleepers; rackrails; driving rods, switches and points: turntables; sliding platforms; portable tracks; axles, springs, tyres, wheels, wheelbodies; mounted axles; frames for locomotives and carriages; disc signals; loading gauges; fish-plates; axle-guards; brake levers, two-wheeled trucks, coupling screws, etc.).
742—6	Pipes and connecting pieces (joints) for pipes—whether rough or coated.
764 and 765	Ropes and cables of iron or steel wire.
775	Horseshoe nails.
ex 776	Iron nails for mountaineering shoes.
ex 787-790	*Casks, used, of sheet iron, for petroleum or oil.
802	Iron or steel manufactured in the form of horseshoes, lighting conductors, hammers, crowbars, axes, hoes, picks, shovels; iron worked in the form of anvils, carriage axletrees or plough-share; steel in the form of files, uncut.
ex 803-809	Horseshoes; spikes (*crampons à souder*) for horseshoes; unfinished; finished ice, spikes *(crampons à glace)* for horseshoes; iron spikes for mountaineering boots.
ex 803-809	Ball bearings, of iron or steel, and detached parts thereof.
ex 808	Gun-carriages.
ex 879, ex 881	Parts of boilers, of sheet iron.
ex 881	Recipients, of wrought iron or of steel, for the transport of gasses.
899	Iron constructions, such as bridges, girders, sheds (marquees), roofing, etc.; supporting poles for electric conducting wires; pipes of wrought iron, soldered or rivetted, having an internal diameter of 40 cm. or more, etc.; finished parts thereof.
	NOTE.—Various other manufactures of iron or steel are also prohibited to be exported, and will be found noted on this list in alphabetical order. (See, *e.g.*, Arms, etc., Machine-tools, etc., Motors, Needles, Vices).
	Jute, jute yarns and certain jute wares (including sacks.) (See under Flax).
ex 609	Kaolin, agalith (magnesium silicate used in the manufacture of paper in place of kaolin).
986	Kino, catechu, gambier.
ex 1057	Lactic acid.
ex 981, ex 982—983	Lanoline, pharmaceutical; lanoline, perfumed. (See also under Oils, fats, waxes, etc.)
	Lard (see under Butter); lard oil (see under Oils, fats, waxes, etc.)
ex 894—898, M 6 and 9	Lathes, of iron, new and used, even with parts of other materials; detached parts thereof. (See also under Machine tools, etc.)
840	Lead ores, galena, lead wastes.
	Lead and its alloys:
841-842	Lead, soft, in bars, pigs, slabs; type metal; scrap lead.
843	Rolled lead; lead wire; bullets, shot; lead in sheets, pipes.
844-845	Printers' type, old and new.

* See Note † on page 354.

846-847	Wares of lead, even combined with other materials.
	NOTE.—The prohibition of the exportation of wares of lead or lead alloys does not apply to—
	Machines, mechanical contrivances and vehicles [Category XII A and B of the Tariff], or to
	Clocks and watches, instruments and apparatus [Category XIII A and B of the Tariff],
	in so far as such articles are not specifically prohibited to be exported.
ex 1006, 1012, ex 1021	Lead nitrate and lead nitrite; chloride of lime; pyrolignite of lime.
	Leather and leather wares:—
174, 177-184, 186	Unworked leather (including leather waste).
ex 187	Leather cut out for military equipment and harness.
ex 188	Parts (finished) for military equipment and harness; cases for firearms; rifle straps; ordinary harness; articles of clothing: of leather.
ex 189	Parts and accessories (finished), for ordinary harness, not mounted, not fitted.
ex 202	Winter gloves, of leather (skin), for men.
ex 1145	Leather shoe (boot) laces; leather peaks for caps. (See also under Boots and Shoes).
ex 218, 997	Lees of wine, liquid or dry.
	Lignite. (See under Fuel).
	Lime:—Nitrate of, crude or purified (see under Nitrates); pyrolignite; chloride (see Chloride of lime).
	Linen yarns and certain linen wares (see under Flax).
	Linseed (see under Seeds); linseed oil (see under Oils, fats, waxes, etc.).
211	Litter of all kinds (straw,* peat litter, chaff, etc.).
	Lubricants. (See under Oils, fats, waxes, etc.)
ex 1053	Lysoform.
	Macaroni (included under Pastes, edible, *q.v.*).
ex 888, and ex 894*c* to 898*b*, M. 9	Machines for embroidering; threading machines; detached parts of such machines.
ex 894*c*-898*b*, M, 6 and 9	Machine-tools of all kinds, new and used, for working, metals, wood, stone, etc., detached parts of such machines.
	Made-up articles:
ex 533-534	Body linen and under-clothing, of wood or of silk combined with wool.
ex 540-542	Hosiery of silk mixed with wool.
543-545	Hosiery of wool pure or mixed.
ex 547-548	Clothing for men and boys, of wool or of silk mixed with wool.
ex 550-552	Clothing for women and girls, of pure or mixed wool.
ex 554	Clothing and hosiery, ornamented with fur, for the use of troops; Clothing hosiery and knitted wares, ornamented or lined with fur or feathers, in combination with wool.
ex 558-559	Made-up articles of pure or mixed wool, winter gloves for men, cases for firearms, bags with metal eyelets (linen-bags), etc.
560	Caps of fur or trimmed with fur.
ex 561-562	Caps of wool or combined with wool.
ex 571	Fur goods: cut-out men's footwear, topboots, cloaks, collars, coverlets, rugs, made-up skins of all kinds, men's gloves, men's garments, etc.
584	Tarpaulins, tents, etc.
ex 625 and 626	Magnesite (natural carbonate of magnesia).
Various Nos.	Magnetos for automobiles.
	Malt (See under Cereals); malt germs, etc., (see under Forage).
ex 1021	Manganese (peroxide of manganese), regenerated, ground or in paste. (See also under Ores).

* The prohibition of export does not apply to common straw bands for binding sheaves, or to straw plaits for packing. [13-10-15.]

ex 1003*a* and ex 1048	Manganese salts.	
	Manures. (See Fertilizers).	
	Margarine and other butter substitutes. (See under Butter).	
ex 981, ex 990	Mastic, pharmaceutical; mastic, other (see under Chemical raw materials).	
ex 894*c*-898*b*, M 9, and ex 899	Material (installations) for aerial (suspension) railways, and detached parts thereof, such as:— control mechanism, rolling stock, pulleys, aerial rails, wagons and wagon-bodies, suspension hooks, safety-wires, support poles, etc.	
76-80	Meat, fresh and preserved, extracts of meat, pork butcher's goods (sausages, etc.).	
938	Medical and surgical instruments and apparatus.	
877, ex 974*b*	Mercury; bi-iodide of mercury; salts of mercury not specified elsewhere such as:—bi-chloride (sublimate), chloramide, protochloride (calomel), iodide and iodate, nitrate, oxide, salicylate, sulphate.	
	Metal-working machine-tools (see under Machine-tools).	
ex 1059	Methyl alcohol (chemically pure wood spirit).	
ex 633	Mica, even in squares or in sheets or slabs, oval or rectangular (mica splittings); rough, not stuck together.	
	Mica and micanite in sheets, tubes, etc., (see under Asbestos).	
91, 92	Milk, fresh; milk, condensed, sterilised, etc. (See also under Butter).	
	Mineral oils (petroleum, Petrolem products, etc.). (See under Oils, fats, waxes, etc.).	
	Molasses (see under Sugar).	
ex 1048	Molybdenic acid.	
ex 971	Morphine and its salts.	
ex 864*c*-898*b*, M 3, and 4	Motors (turbine) for torpedo boats.	
ex 894*c*-898*b*, M 5	Motors (petrol) for automobiles.	
	Motor cars, motor cycles, and various component parts thereof (see under the headings for Vehicles, Motors, Magnetos, Tyres).	
134	Mules. (See also Horses and Asses).	
51—52	Mustard (in seed, crushed, ground or prepared).	
	Nails (horseshoe nails and nails for mountaineering shoes). (See under Iron).	
ex 1059, ex 1065, ex 1145	Naphthaline. (See Coaltar derivatives).	
	Needles for embroidering, crocheting, or knitting machines.	
859	Nickel and nickel alloys.	
	Nickel in cubes, sponges, or cast bars; waste and scrap nickel; German silver in crude pieces.	
860	Nickel pure or alloyed, rolled, drawn, in slabs, bars, sheets, wire, and pipes.	
861	Wares of nickel and nickel alloys, wares of German silver, alphenide, and alpaca.	
	NOTE.—The prohibition of the export of wares of nickel and nickel alloys does not apply to—	
	Machines, mechanical contrivances and vehicles [Category XII A and B of the Tariff], or to Clocks and watches, instruments and apparatus [Category XIII A and B of the Tariff],	
	in so far as such articles are not specifically prohibited to be exported.	
ex 1048	Nickel oxide.	
	Nitrates:—	
ex 163	Crude, such as saltpetre (nitrate of potash), Chile saltpetre (nitrate of soda), lime saltpetre (nitrate of calcium), nitrate of ammonia.	
1020; ex 1021; ex 1048	Pure, such as saltpetre (nitrate of potash), Chile saltpetre (nitrate of soda), nitrate of calcium; nitrate of barium; nitrate of strontium.	
ex 974*b* and 981	Nitrate of silver (lunar caustic), fused in sticks, in crystals, or made up in the form of pencils.	
ex 1006	Nitrate and nitrite of lead.	
1034	Nitric acid; mixtures (with sulphuric or hydrochloric acid).	

ex 1026, ex 1006	Nitrite of calcium; nitrite of soda; nitrite of lead.
ex 971	Novocain.
	Oil colours (see under Colouring materials, etc.).
	Oils, fats, waxes, etc.:—
72-75	Edible oils (olive oil, cocoanut oil, earthnut oil, cottonseed oil, etc.—when edible).
	Edible fats (see under Butter).
643*b*	Petrolium residue for fuel (see Fuel).
974*a*	Caster oil, colourless, purified.
995	Oil of turpentine.
1065*b*	Benzine and substitutes for oil of turpentine.
1113	Varnishes, lacs, and siccatives, whether or not mixed with colouring materials, including extracts for lacs and artificial turpentine; linseed oil freed from grease through exposure to the sun (*standol*).
1114	Linseed and poppyseed oil, boiled (oil varnish): fluid.
	Oils, fats, waxes, mineral oils, tar oils, resinous oils, paraffin, ceresine, vaseline—for industrial purposes:—
1115-1118	Crude vegetable oils (linseed oil, denatured olive oil, almond oil, oleic acid, castor oil, peach kernel oil, inedible earthnut oil, hemp oil, inedible cottonseed oil, rapeseed oil, industrial sesame oil, etc.).
1119	Crude animal oils (neat's foot oil, fish oil, lard oil, unpurified codliver oil).
1120	Solid vegetable oils, crude (inedible copra, palm oil, etc.).
1121	Solid animal oils, crude (tallow, bone fat, unrefined lanoline, etc.).
1122-1125*	Vegetable waxes; animal wax (beeswax, spermaceti, etc.).
1126-1128	Mineral oils and tar oils (petroleum, pertroleum products, etc.).
1129*-1130	Paraffin and ceresine, pure, not manufactured; vaseline.
1131	Resinous oils.
ex 1132*	Oils, fats, and waxes, prepared, for lubricating purposes; artificial vaseline, worked paraffin, purified lanoline.
1133-1134	Turkey-red oil and other sulpho-ricinates, stearin, degras.
	Fatty oils for pharmaceutical use (see under Pharmaceutical articles).
	Oilcake and oilcake meal (see under Forage).
	Oilseeds (see Seeds).
	Oleomargarine. (See under Butter.)
ex 968, ex 981	Opium and opium powder (included under Pharmaceutical articles); extract and tincture of opium. (See also Codeine and Morphine).
875	Ores, crude, not specially mentioned in the Tariff, such as arsenic ore, manganese, antimony ore (sulphuretted antimony), natural oxide of uranium (pitchblend) tungsten ore (wolfram), etc.†
1061	Oxalic acid; oxalate and bioxalate of potash.
	Oxalate of calcium (see under Calcium salts).
	Palm oil. (See under Oils, fats, waxes, etc.)
ex 289—291	Paper making material, fibrous (wood-pulp, wood sawdust, cellulose, etc.).
	Paper, pasteboard, etc.; the following:—
292	Grey pasteboard; straw and wood pasteboard, leatherboard, etc.
293—297	Packing-paper of all kinds (including pasteboard weighing up to 400 grammes inclusive per square metre,

* Vegetable, animal, and mineral waxes falling under Tariff Nos. 1122—1125, 1129 and 1132 are prohibited, whether they are in the crude state or are blanched, dyed, or otherwise prepared. (April 24, 1915).

† This heading does not apply to iron ore, copper ore, or lead ore. The two latter are, however, prohibited to be exported. (See under "Copper," and "Lead.")

	corrugated paper, tarred papers, "patent packing," etc.).
300-302	Printing paper, writing paper, letter paper, and drawing paper (not further worked after manufacture), whether of one or of more colours (including newspaper paper).
303-304	Pasteboards weighing 200 grammes or more per square metre.
305	Ruled papers and pasteboards.
306*a*, *b*	Pasteboard :—coated with chalk or covered with chalk-coated paper; worked in colours; with impressed designs.
306*c*, *d*	Papers and cardboards :—coated with chalk or covered with chalk-coated paper; folded, perforated; gummed; unsensitized photographic paper.
ex 641	Roofing cardboard (asphalted or bituminous cardboard).
	Paraffin. (See under Oils, fats, waxes, etc.)
	Paraformaldehyde (see under Formalin).
22	Pastes, edible.
ex 974*b*, 982/983, and 1005	Perborates.
	Permanganate of calcium, (see under Calcium, salts).
ex 1019	Parmanganate of potash.
1046, ex 974*b*, ex 981-983	Peroxide of hydrogen (oxygenised water).
	Peroxide of manganese (see under Manganese).
ex 1005	Peroxide of sodium, of calcium, of barium, and of lead.
	Petroleum, petroleum products, petroleum residues, etc. (See under Oils, fats, waxes, etc.)
	Pharmaceutical articles (raw materials) :—
966—967	Raw materials, vegetable and animal, for pharmaceutical use whether in the rough state, or cut up, or having been subjected to any mechanical process.
ex 968	Products for pharmaceutical use, vegetable and animal; saps of plants, concentrated by evaporation; balsams; resins and gum-resins; fatty oils, not manufactured; grease for sabots, vaseline in boxes.
ex 981	Pharmaceutical products specified in this list as coming under 968 and 974*b*, put up in doses, solutions, tablets, sterilised ampoules, prepared for retail trade, etc.
ex 974*b*	Phenacetin.
	Phenol (see Coal tar derivatives).
ex 609, ex 981	Phosphate of lime, for cattle food, with or without admixture of other substances.
ex 165, 166	Phosphates and phosphorites, not prepared; Thomas phosphates (residues from the dephosphorisation of iron). (See also under Fertilisers.)
1023*b*	Phosphate of soda.
1008	Phosphoric acid; boric acid.
1029—1030 ex 1008	Phosphorus, yellow and red (amorphous); Phosphorus, sesquisulphide of.
1067	Phthalic acid; resorcin.
143—144	Pigs.
	Pipes of iron and steel, lead, and other metals (see under the respective metals).
	Pitch of coal tar (see under Chemical raw materials); brewers' pitch, etc. (See under Resins, gums, etc.)
	Platinum, platinum wares, platinum salts (see under Gold, etc.)
ex 1151 and various Nos.	Pocket lamps, electric, and cases and other detached parts thereof. [For carbon stems for such lamps, see under Carbon.]
1143 *a* and *b*	Polishes of all kinds, including floor polishes; preparations, blacks and oils for leather; cleaning soaps and pomades; similar fatty substances not specified elsewhere in the Customs Tariff, containing turpentine, etc.
1031; ex 1048; 1000 and 1001	Potash; potassium and sodium; caustic potash and caustic soda, whether solid or liquid.

[For potash salts, see under the respective headings, *viz.*:—Acetates, Bicarbonates, Chlorates, etc., Chloride, Cyanide, etc., Hypochlorites, etc., Nitrates, Perborates, Pyrophosphate, Oxalate, Sulphate, Sulphide, Sulphite, and also under Fertilisers.]

45 Potatoes.

Poultry, living or dead; preserves of poultry.

ex 981, ex 1021, ex 1048 Powders for stimulating the appetite of animals, etc., powder for tempering iron and steel; powders and plates for soldering metals.

Pastels, coloured with chalk or covered with chalk.

1138—1139 Products of all kinds (powders, etc.) for use in laundry washing, not specified elsewhere in the Tariff.

Projectiles and cartridges for infantry or artillery, and detached parts thereof.

ex 1017 Protoxide of nitrogen (laughing gas), compressed, also liquid.

Pulse (see under Cereals).

Putties. (See under Paraffin, etc.)

ex 707 Pyrites (sulphur iron).

ex 1021 Pyrolignite of lime.

ex 1008 Pyrophosphate (alkaline).

ex 971 Quinine, hydrochlorate and sulphate of.

81—82 ex, 1485* [Rabbits, dead, rabbits, living.]* [See also under Game.]

ex 289 Rag pulp.

ex 162 and 288 Rags of wool and half-wool, for manure or for other uses.

288 Rags of all kinds (except rags—other than of wool and half-wool—for manure), old cordage and other wastes used in the manufacture of paper, waste paper, etc.; also paper clipping for packing purposes.

Railway plant (see under Iron); suspension (aerial) transportation installations and materials therefor (see Material for suspension railways).

Raisins (see under Grapes).

Ramie and yarns and certain wares thereof (see under Flax).

Rape-seed (see Seeds); rape-seed oil (see under Oils, fats, waxes, etc.).

Recipients of iron, etc., for gases (see under Iron); glass recipients for acids (see under Glass).

ex 149, 1072 Rennet, not prepared (natural rennet) and in powder; extract of rennet and other preparations of rennet.

Resins, unmanufactured (see Chemical raw materials).

1067 Resins, manufactured, of all kinds (brewer's pitch, shoemaker's pitch, resin ethers, etc.) including powdered resins.

ex 113 Resins, artificial (artificial turpentine).

Resins and gum-resins for pharmaceutical use (see under Pharmaceutical articles).

1067 Resorcin; phthalic acid.

Retort carbon. (See under Fuel.)

Rice. (See under Cereals.)

Ropes and other ropemakers' wares (except nets) see under Flax); ropes and cables of iron or steel wire (see under Iron).

989 Rosin (colophony—purified pine resin).

516—529 Rubber (*caoutchouc*), and wares thereof even in combination with other materials, including tyres and covers for cycles and carriages, including elastic tissues. (See also under Boots and shoes.)

Sacks and jute tissues for making them. (See under Flax.)

ex 510—511 Sacks of straw, bast, sorghum, esparto, cocoanut fibre, vege-

---

* A general authorisation to export has been granted in respect of live rabbits and of ground and winged game (under which heading *dead* rabbits come). [13-10-15.]

† The prohibition of export does not apply to hardened rubber, celluloid, stabilite, galilith, and wares of such materials. A general authorisation to export has been granted in respect of insulating tissues and ribbons not impregnated or combined with rubber or guttapercha. [13-10-15.]

‡ Subject to compliance with certain regulations, empty sacks are allowed to be exported from Switzerland to foreign countries if destined to be filled with cereals, etc., and returned to Switzerland within a fixed period (as a rule, two months).

‖ In the case of empty sacks of foreign origin which have been imported in a filled condition and which are sought to be returned empty, re-export is only allowed if satisfactory proof is produced that the sacks were in fact imported, filled, from abroad, and that the consignor is obliged, under contract to return the sacks.

ex 1154	Saddlery (see under Leather); component parts of saddlers' wares suitable for military use.
65—66	Sago and tapioca.
1068	Salicylic acid, crude, or purified.
ex 1028	Salicylate of soda.
ex 974*b*	Salol.
48—50	Salt (kitchen salt, salt for cattle, saline salt, table salt, etc.).
ex 974*b*	Salvarsan and neo-salvarsan.
	Saltpetre, Chile saltpetre, lime saltpetre, etc., crude or pure (see under Nitrates).
ex 971	Santonine.
ex 971	Scopolamine (hyoscine).
	Scrap metals (see under the respective metals).
Various Nos.	Searchlights.
203—205	Seeds (including forage seeds and oilseeds).
ex 966—967, ex 102	Semen-contra (flos cinae) (see Pharmaceutical articles); semen-contra), sugared.
	Semolina. (See under Cereals.)
145	Sheep.
	Sheet iron and steel (see under Iron).
ex 990, ex 1057	Shellac in sticks and shellac in scales, even if ground.
922—924	Ships and boats.
ex Category VII C	Silk:—Articles included in this category (even if mixed with wool), capable of being used for the clothing and equipment of troops; and bandaging articles.
ex 445	Silk thread for surgical use.
ex 974*b*	Silver bromide and silver iodide. (For silver nitrate, see under nitrates.)
	Silver and silver wares (see under Gold, etc.)
ex 270—271	Skis and show-shoes.
172—176*	Skins and hides (raw, tanned, curried, and roughly sewn together).
1141—1142	Soaps of all kinds.
1039—1040	Soda, calcined or crystallised.
ex 1048; 1000—1001	Sodium and potassium; caustic soda and caustic potash, whether solid or liquid.
	[For sodium salts, etc., see under the respective headings, *viz*:—Acetates, Aluminate, Borax, Bicarbonates, Chlorates, etc., Chloride, Cyanide, Hydrosulphite-formaldehyde, Hypochlorites, Nitrates, Nitrite, Perborates, Peroxides, Phosphates, Pyrophospates, Salicylate, Soluble glass, Sulphate, Sulphide, Sulphites, etc.]
1045	Soluble glass.
100	Soups, condensed, and articles for soup.
36—39	Southern fruits (oranges, lemons, dates, figs, almonds, bananas, etc.).
46—47†	Spices of all kinds, ground or not [including Spanish pepper (paprika)].
	Spirits of wine (see under Alcohol).
1078—1081	Starch of all kinds, raw or manufactured; starch gum, etc.
	Stassfurt salts (see under Fertilisers).
	Stockings, etc., (see Made-up articles).
149	Stomachs of calves, fresh or dried; guts and bladders; natural rennet.
	Straw. (See under Litter.)
67—70	Sugar, molasses, and syrup.
102	Sugared goods and confectionery.
	Sulphate of alumina (see under Alumina); sulphate of copper (see under Copper sulphate); sulphate of chrome (see under Tanning substances).

* Fresh, dried, or salted skins of wild animals, of cats, and of rabbits may be freely exported, until further notice. [13-10-15.]

† A general authorisation to export has been granted in respect of vanilla pods. [13-10-15.]

ex 1025 and ex 1048	Sulphate of soda (Glaubers' salts) and other alkaline sulphates and bisulphates.
ex 1025—974*b*	Sulphide of soda and other alkaline sulphides.
ex 1023*a*, ex 1027, ex 1048	Sulphite, bisulphite, and hyposulphite of soda, and other alkaline sulphites, bisulphites, and hyposulphites.
993—994	Sulphur in pieces, lumps, sticks, or powder; flowers of sulphur.
1036—1037	Sulphuric acid; sulphurous acid in aqueous solution or compressed, also liquefied; chlorosulphuric acid; fuming sulphuric acid (oil of vitriol).
170, ex 1036—1037	Sulphuric acid (used), for use as manure or for other uses.
	Superphosphates. (See under Fertilisers.)
938	Surgical and medical instruments and apparatus.
143-144	Swine.
	Tallow. (See under Oils, fats, waxes, etc.).
ex 948	Tachometers of all kinds.
1054	Tannic acid (tannin), gallic acid and other similar acids (gallaminic acid).
1055	Tanning extracts, liquid or solid.
Various Nos.	Tanning substances of all kinds, natural and artificial, crude and manufactured, including sulphate of chrome and solutions of sulphate of chrome.
	NOTE.—"Tanning substances (rhatany and septfoil roots)" [ex 966—967], and "tanning substances such as gallnuts, sumach, etc." [ex 1093—1094], had been prohibited to be exported before the decree of the 14th June, 1915, which extended the prohibition to cover tanning substances of all kinds, *in so far as they had not already been prohibited.*
225	Tanning wood, even grated or ground, tan bark.
65-66	Tapioca and sago.
996, ex 991	Tar of all kinds; coal-tar pitch. (See Chemical raw materials.)
1064	Tar oil derivatives.
	Tarpaulins, tents, etc. (See Made-up articles.)
998, ex 1058	Tartar, crude; tartrate of potash, alkaline bitartrate, stibiated tartar.
	Tartrate of calcium (see under Calcium salts).
1050	Tartaric and citric acids.
58-59	Tea.
ex 954	Telephonic apparatus and detached parts thereof, including microphones.
ex 971	Theobromine and its salts and combinations.
ex 947; 693-694*c*	Thermometers, clinical; glasses for the same.
166	Thomas phosphates (residues from the dephosphorisation of iron).
	Tin and its alloys:
853	Tin in bars, pigs, slabs (including tin solder).
854	Scrap tin; filings and shavings.
855	Tin, pure or alloyed (Britannia metal), hammered or rolled, sheets, wire, or pipes.
856	Tin foil (thin sheets of tin for bottle capsules, etc.).
857-858	Wares of tin or tin alloys (wares of Britannia metal).
	NOTE.—The prohibition of the export of tin and tin alloys does not apply to— Machines, mechanical contrivances and vehicles [Category XII A and B of the Tariff], or to— Clocks and watches, instruments and apparatus [Category XIII A and B of the Tariff] in so far as such articles are not specifically prohibited to be exported.
	Tinplate. (See under Iron).
1047	Tin salts.
1140	Tin ashes, oxide of tin, and stannate of soda.

ex 1048	Titanic acid.
109*a*	Tobacco leaf, unmanufactured, ribs and stalks.
	Toluol (see Coal tar derivatives); toluidene (see Aniline combinations).
ex 894-898; & various Nos.	Transformers, electric, and detached parts thereof.
ex 971	Tropacocaine and its combinations.
ex 1038	Tungstic acid.
	Turpentine and turpentine oil (see Chemical raw materials).
	Tyres of rubber (see under Rubber).
	Underclothing. (See Made-up articles).
ex 1048	Vanadic acid.
	Varnishes. (See under Oils, fats, waxes, etc.).
ex 968, ex 981, ex 982-983	Vaseline, pharmaceutical, in boxes or otherwise; perfumed vaseline (See also under Oils, fats, waxes, etc.).
40—44*	Vegetables (fresh or preserved). (See also Potatoes.)
	Vehicles (for carrying passengers or goods) and finished parts thereof, such as automobile chassis, axles of automobiles with mechanism, radiators of automobiles, wheels, etc.†:—
905	Country carts, vehicles not on springs; tumbrels, wheelbarrows.
905‡	Furniture vans.
907	"Roulottes" of all kinds.
908—910‡	Sledges (including those for children); carts for children, and velocipedes for children, having at least three wheels.
911	Invalid's wheeled chairs.
	Vehicles not elsewhere specified in the Tariff:—
912	Without mechanical motive power.
913—914	With mechanical motive power (*including* motor cycles).
915—916	Cycles of all kinds, without mechanical motive power.
917, etc.	Detached parts of motor and other cycles.
918—921	Railway vehicles:—passenger carriages, luggage and goods vans, trucks, and other railway vehicles. [For rolling stock, wagons, etc., for aerial transport installations, see under Materials, for suspension railways].
	Vermicelli (included under Pastes, edible, *q.v.*).
ex 757-760, ex 798-801, ex 808, and 809	Vices, new or old.
131	Vinegar, acetic acid, essence of vinegar; containing more than 12 per cent of pure acetic acid.
	Vitriol, oil of (see Sulphuric acid); copper vitriol (see Copper vitriol).
	Wadding. (See under Cotton wool and under wool.)
ex 219	Wastes (vegetable) which may be used as fuel.
1140	Wastes from soap and colour works, tin ashes, oxide of tin and stannate of soda.
	Wastes used in the manufacture of paper, waste paper, (see under Rags); cotton waste (see under Cotton).
	Waxes. (See under Oils, fats, waxes, etc.)
117	Wine natural, wine must, and all special qualities of non-sparkling wines (whatever be their alcoholic strength)—in casks.
ex 218, 997	Wine lees, liquid or dry.
	Wire (see under the respective metal); wire-iron and barbed wire (see under Iron).
	Wolfram ore (see under Ores).
	Wood for fuel (see under Fuel); tanwood (see Tanning materials).

* A general authorisation to export has been accorded in respect of tomato preserves, fresh artichokes, and fresh and dried truffles. [13-10-15.]

† See also under "Motors" and "Magnetos," and under "Rubber."

‡ A general authorisation to export has been granted in respect of furniture vans (No. 906); of tank wagons (No. 919) returning empty to foreign countries, or going to foreign countries to be filed and re-imported; and also in respect of vehicles for children, and finished parts thereof. [13-10-15.]

	Wood (for building or other purposes):—
229-232	In the rough or squared with the axe.
232-237	Sawn lengthwise or split, even if completely squared.
239	Staves (*merrains*), split, shaped with the axe, or sawn.
240	Fitted (*emboites*).
248	Packing materials, ordinary (cases, casks, etc.) of soft wood, for dry goods, also parts thereof, such as boards for cases, etc.; wood wool.
ex 248, ex 250, ex 256*a*	Staves (*douves*) and parts of bottoms of casks, of wood.
